HIGHER EDUCATION IN CZECH: TRADITIONS, STRUCTURE, ADVANTAGES

Higher education in Czech is rich in traditions. Here a Czech king and Holy Roman Emperor Charles IV founded the first university «to the north from Alps and to the east from Paris», on April, 7th, 1348. Charles University in Prague was governed on the same principles as universities in Paris and Bologna and became world-famous within the shortest term. In the beginning the university consisted of 4 departments: theological department, liberal arts department, department of law and medicine department. The professors came from Czech and from the neighbour lands. Jan Hus, Johannes Kepler, Albert Einstein can be mentioned among many notable personalities, connected with Charles University.

The second oldest university in Czech was established in the city of Olomouc in 1573. This university was named in honour of the prominent Czech historian and politician Palacký and is connected with Gregor Mendel, the founder of genetics, who studied here.

Many other Czech universities take top positions in the ranking of the European educational establishments. The largest economic university of Czech Republic, the Prague economic university was Alma Mater for such world-famous economists as Nobel prize winners Robert Mundell, Milton Friedman and Gary Becker. And the Czech Technical University in Prague is the oldest non-military technical university in the world.

The higher education in Czech is divided into three levels: Bachelor's programme, Master's degree programme and Doctoral programme. Bachelor's programmes are focused on preparation for professional activities and studying on Master's degree programmes. The studying lasts 3-4 years and meets the international level ISCED 5A. This level of higher education prevails at private universities and colleges in the Czech Republic.

Master's degree programmes are focused on gaining of theoretical knowledge based on the modern scientific concepts, on ability to use theory in practice and on promotion of creative abilities. Master's degree programmes are «built on» on the Bachelor's programmes. This level of higher education in Czech has a duration from 1 to 3 years. Some specialities do not have Master's degree programme as continuation of bachelor degree course. In this case, education lasts from 4 to 6 years.

Thus, standard higher education in Czech can last from three to seven years and meets the international level ISCED 5A.

The next level of higher education, Doctoral studies, can be started upon graduation from Master's degree programme. Doctoral programmes are offered only by educational establishments of university type and lasts 3–4 years.

HIGHER EDUCATION IN CZECH

CZECH LANGUAGE COURSES IN THE CZECH REPUBLIC

WHY SHOULD YOU GET HIGHER EDUCATION IN CZECH?

Here are some indisputable advantages of Czech education.

- ▶ **QUALITY.** The Czech education is of the highest quality. It meets the European standards and is recognized all over Europe.
 - ▶ **PRESTIGE.** Studying in Czech is prestigious. Many Czech higher schools have top positions in the ranking of the European universities. The most well-known Czech university, Charles University in Prague, is the oldest university of the Central Europe.
 - ▶ **COST SAVING.** Education in Czech does not cost a fortune. Higher education in the state universities and colleges is free both for Czechs and for foreigners. Once the student pays for a good course of Czech language and finishes it, he/she enters the university and studies for free till the graduation.
 - ▶ **PROSPECTS.** Training in Czech has brilliant prospects. According to statistical data, only 9 % of the population in Czech have higher education; therefore, graduates from universities have excellent chances for getting professional job. Moreover, foreign graduates of the Czech universities, unlike other foreigners, are not obliged to get a permission to work, which simplifies job placement procedure significantly not only for the worker, but also for the employer who employs the foreigner who has graduated from the Czech university. That is why the employers do not have any grounds to prefer Czechs. Foreigners-graduates have the same chances for employment, as other citizens of the country.
- At the same time, the Czech universities actively cooperate with the international corporations which employ graduates as well. During the training in the last courses, students can visit open days and participate in workshops of large companies like Coca Cola, Procter and Gamble, Mars, Unilever, T-Mobile, Big Four accounting firms, numerous banks and many other enterprises. After successful qualifying in spring, student can become employee of these corporations in summer, right after termination of the study.
- ▶ **INTERESTINGNESS.** Fifthly, it is interesting! The Czech universities cooperate with foreign universities closely. Students have an excellent possibility to participate in exchange programmes. And since Czech Republic is a member of Schengen zone located in the heart of Europe, students with Czech student's visa can travel across Europe freely not only on vacation, but also on «Euroweekends».

ABOUT OUR COMPANY

Advent Euroconsult, s.r.o. is the Czech company offering foreign students profound assistance and support in entering the Czech universities.

All our long-term pre-entry and language courses are offered only **by large Czech state universities**, which not only **guarantees the highest quality of competence in languages** of our students, but is also very important for **getting a long-term student's visa and then residence permit by the students**. Additionally, we thoroughly prepare each student for the interview at the embassy. All these factors increase the chances of our students to get student's visa in Czech considerably.

Currently our company offers Czech language courses and pre-entry courses at the following well-known state universities:

- ▶ Charles university in Prague
- ▶ Czech Technical University in Prague
- ▶ University of Economics in Prague
- ▶ Brno University of Technology
- ▶ Czech University of Agriculture in Prague

Alongside with quality of competence level of our students and receipt of a visa by the students, we pay much attention to **financial aspect of our programmes**. We understand that the investments required for arrival to Czech and learning of the Czech language at top level are very significant for many young people and their families. Therefore, we offer courses and adaptation programmes of various price categories, including quite **affordable options** and **discounts for preliminary registration** of students at our programmes.

After signing the contract for the majority of our programmes we charge advance payment at the rate of only **590–600 euros**. And the main part of the programme's cost will be paid only after receipt of visa or even after arrival to Czech Republic. In certain circumstances, we can accept payment by installments after arrival to Czech.

We work with each client **individually** and do our best for solving various problems connected with reception of visa, education and living Czech. Our adaptation and academic support programmes are intended for helping the students to accustom to their new life in Czech as soon as possible and to enter the chosen university and department easily.

HIGHER EDUCATION IN CZECH

CZECH LANGUAGE COURSES IN THE CZECH REPUBLIC

CZECH LANGUAGE COURSES

OBJECTIVE OF THE COURSES

Higher education in the state Czech educational establishments is free. However, this fact is true only if we're speaking about studying exclusively in the Czech language. The foreign entrants who are willing to study in Czech should take examinations for entry not only in profession-related subjects, but also in Czech language. The Czech state universities require the foreign students to know the Czech language at B2 international level. To reach this high level, short-term or non-intensive courses are not enough. Therefore, the majority of our courses last for one semester or a year.

Czech language courses consist of 400–1,000 academic hours (depending on university and programme chosen). Therefore, if the student pays due attention to studying of language, visits the courses regularly and makes all homeworks, then he/she will easily pass Czech language examination and will start the training at Czech programmes of the universities after a long-term intensive course.

ORGANIZATION OF COURSES AND VISA ISSUES

Our educational programmes are arranged by large state universities of Czech Republic. Therefore, Czech is taught by qualified and skilled professors. While being in the country and learning the Czech language, course attenders can visit universities on open days personally, can talk to the personnel and decide on the university and their further speciality. Living in the same dormitory with native speakers allow to improve Czech in chatting and communicating with them.

The fact that the courses are organized by well-known Czech state universities only will have favourable effect on consideration of student's applications for visa by the employees of state Czech departments and raises the chances of students for receipt of visa considerably. All pre-entry courses give grounds for getting a student's visa until August, 31st of the next year. Thus, after entering the university the students simply prolong their visa from the first of September of a new academic year, without leaving Czech, and start studying at the university.

PRE-ENTRY COURSE AT CZECH TECHNICAL UNIVERSITY (CTU) IN PRAGUE – CZECH LANGUAGE

- ▶ Duration of the courses
 - Year-long course: **September 12th, 2019 - June 2020, student visa valid until August 31st, 2020**
October 2019 - June 2020, student visa valid until August 31st, 2020
 - One semester course: **January 9th, 2020 - June 2020, student visa valid until August 31st, 2020**
- ▶ **More study hours guarantees excellent level of language competence!**
- ▶ **Up to 1000 study hours of language and academic training** during one-year courses
- ▶ **500 study hours of language and academic training** during 1-semester course
- ▶ Level of Czech language reached after finishing the course – **B2 or C1** (depends on programme)
- ▶ Possibility to learn additional subjects – **YES**
- ▶ Advance payment – **only 590 euros**
- ▶ **Remaining tuition due after receiving student visa and arrival to the Czech Republic**

Courses are organized **directly by the state Technical university in Prague**. The course programme consists of two semesters: winter semester and summer semester and 20-30 academic hours of Czech language and profession-oriented subjects per week. On the average there are 15 students in a group. Highly professional lecturers of the university teach at the courses. Upon termination of the course, the students who visited classes regularly and paid due attention to homeworks and teachers' advises reach B2 language level, which is a prerequisite for entering the Czech universities. Some of our programmes provide also C1 language level.

The course programme includes:

- ▶ **Czech language courses at Czech technical university in Prague CTU** - 2 semesters, 580 academic hours
- ▶ **Additional classes for C1 language level** - 100 academic hours with experienced native speaker lecturer (for students of CTU Premium C1 programme and CTU Premium C1-Medicine programme)
- ▶ **Additional classes - "Colloquial club" with the native speaker** - 100 academic hours for students of CTU Premium and CTU Student programmes
- ▶ **Additional classes - review of entrance exams of the Czech language** of different public universities of Prague and other cities in Czech Republic - 80 academic hours (for students of CTU Premium programme)
- ▶ **Academic training – 90-140 academic hours** - courses of profession-oriented subjects and consultations with experts in education. The courses of 2-4 profession-oriented subjects chosen by the student are included into the price for "CTU Premium programme"
- ▶ **Profound programme of adaptation and academic support** carried out by our skilled tutors. More detailed description of services offered in our programmes of adaptation and academic support is presented in "Adaptation programmes" section.

ENTERING THE ENGLISH PROGRAMMES AT OTHER UNIVERSITIES IN CZECH

We offer assistance at enrolment to English studying programmes of other universities of Prague and Czech Republic. You can choose one of the offered service packages. You can get more detailed description of the services included into adaptation and academic support programmes «ČZU Plus» and «ČZU Premium» in «Adaptation programmes» section.

RESIDENCE OF THE STUDENTS

Timely registration for a program enables the student to choose a hostel from the list of the offered options with different prices and conditions.

We offer the following hostels in Prague:

- ▶ Dc Residence: www.dcrezidence.cz
- ▶ Apartman student: www.apartmanstudent.cz
- ▶ Rooms 5: www.rooms5.com
- ▶ Hotel-type hostel Hloubetin

The room price ranges from **220 to 310 EUR** per person per month.

There are single, double, and triple rooms. The rooms have bathroom and are equipped with fridge, bed linen, desks, wardrobes; the kitchen is either in the room or on the floor. Some rooms also have a TV. The buildings are connected to the Internet and have laundry.

For booking a room, the most hostels require payment of a deposit at the rate of 1-month rental.

Students of the Czech University of Life Sciences in Prague can reside in the university dormitory in Prague 6 district. Upon arrival to the Czech Republic, students of the Technical University in Prague can move to the dormitory of the Technical University in Prague 6 district. Students of University of Economics in Prague can reside in the university dormitory in Yarov (Prague 3).

Students of courses in Brno can reside in a comfortable hotel-type hostel called YoungSpace, in renovated 2- or 3-bed rooms with WC for one room or for a block of two rooms and a kitchen in a room or on the floor. Room price - from 130 to 170 EUR per month; the way to courses takes about 20 minutes. The hostel has access to the Internet and is equipped with washers.

Many students in Brno stay in the dormitories of the Technical University.

ADAPTATION PROGRAMMES

We offer 3 programmes depending on your age and preferences. **Premium or Student** programmes will be perfect for those students who want to get maximum support and feeling of confidence in a new, unfamiliar country. This is also the best variant for the parents who send their children for study to the Czech Republic after finishing the school. You and your children will get the profound and extensive help in various situations which the student may face within the first year of stay in Czech.

We help you to collect the package of necessary documents for the embassy, we advise and prepare you for the interview at the embassy, review possible questions which can be put during the interview and provide you with correct and wrong answer variants.

Upon arrival to the Czech Republic we help you to pass all statutory procedures. Within the first year we provide you with information on life and studying in Czech. If necessary, we accompany you to the doctor and help you to communicate with the medical institutions and the insurance companies.

Besides we help you with the further enrolment. Our tutors offer individual consultations concerning all questions connected with a choice of speciality, selection and enrolment to pre-entry courses in various subjects, collect the information on entrance examinations and find examples of tests. Tutors help the students to submit applications to several preferred universities and, thus, promote success of students on entrance examinations and increase their chances to enter the state university in Czech.

Premium programme, as a rule, includes also **training in specialty-oriented subjects** and colloquial club – additional out-of-class communication with native speakers and analysis of entrance exams in Czech language of various state universities in Prague and other cities of the Czech Republic. **Premium programme is focused on object-orientated preparation of students for entrance to public universities of Czech.**

We pay much attention also to organization of our students' free time. Parents can be sure that their children will spend their free time interestingly and usefully. We arrange excursions, communication with Czechs – native speakers, visitings of open days in universities, etc.

"Just Courses" programme, which provides only visa support, and **"Plus" programme**, are more affordable and money-saving options for independent young people. If you are purposeful, self-confident, open for everything new, but not ready to spend a big sum of money for educational programme, we can offer you the best price-quality ratio. Plus programme, as well as Student or Premium programmes offered by us include full visa support and comprehensive support in the first some days after arrival to the Czech Republic, when you do not understand Czech, but have to do many important and urgent things (registration at courses, in a dormitory, in police on foreigners' affairs, purchase of monthly ticket, choice of mobile operator, opening of the bank account, etc.). We will help you with all these questions. Later, when you make yourself familiar with the life in Czech and do not need so much help from us, we will give you more independence. Also we offer programmes without help of tutors after arrival to Czech. These courses include only visa support and preparation for the interview. **Thus, you can save up to 1.500 EUR.**

SERVICES INCLUDED INTO PREMIUM PROGRAMME
